This house is made up of different volumes that slide into each other, allowing a modern reading of the concept of Mediterranean architecture. All the volumes energize the outdoor spaces by adapting to the pre-existing parameters of the plot, while the materials and their textures play with the light in the interior spaces.

The essence of the interior of the house translates into elegant and functional lines, although materials such as stone and glass interact while maintaining the Mediterranean style. The modern design of this house creates wide and warm spaces. The simple geometric shapes, the use of Mediterranean materials and the optimisation of the planes and volumes generate a sense of order and spatial quality. The movement of natural light in the house reveals clean and essential spaces.

Each facility in the property is of a very high standard, as evidenced by the collaboration with well-known brands whose authentic products offer both peace of mind and the modern comforts that make it possible to live in style. From stoneware and electric mechanisms to stainless steel railings and frameless safety glass, each room is strategically located to optimize space, lighting, and views. The 5 bedroom, 5 bathroom house is less than 2 km from Arenal Beach, Javea, restaurants and shops.
