This house is made up of different volumes that slide into each other, allowing a modern reading of the concept of Mediterranean architecture. The interplay of volumes energizes the outdoor spaces by adapting to the pre-existing parameters of the plot, while the materials and their textures play with the light in the interior

spaces.

The essence of the interior of the house translates into elegant and functional lines, although materials such as stone and glass interact while maintaining the Mediterranean style. The modern design of this house creates wide and warm spaces. The simple geometric shapes, the use of Mediterranean materials and the optimisation of the planes and volumes generate a sense of order and spatial quality. The movement of natural light in the house reveals clean and essential spaces.

Featuring 5 bedrooms and 5 bathrooms, the house is fully equipped to accommodate a large family while providing the privacy needed to entertain guests who might spend the night here. Other amenities include air conditioning, central heating, a garage, a private garden, a private terrace, a separate dining room, a gym and a spa.

The property also has a swimming pool which, combined with the house, provides a luxurious living environment with the elegance that suits style design influences. It is close to Javea's Arenal beach, restaurants and shops, among others, which are within a radius of 2 km.

The time has come for you to finally settle down, and it could be yours. Call us now for more details.
